As an aspiring Full Stack Developer and UX Designer, proficient in React with TypeScript, HTML, CSS, JavaScript, SQL, and design tools such as Figma and Adobe XD. Passionate about building user-focused digital experiences, blending UI/UX design with strong development skills to deliver impactful solutions and continuously learn new technologies.

EDUCATION

Bachelor of Technology in Artificial Intelligence & Data Science (Expected 2025)

Savior Jesus Matriculation Higher Secondary School – 12th Grade (70%)

SKILLS

Technical Skills

Frontend: React (TypeScript), HTML, CSS, JavaScript

Backend & Database: SQL Server

UI/UX: Wireframing, Prototyping, Responsive Design, Usability Testing

Tools: Figma, Adobe XD, Photoshop, GitHub, Microsoft Azure, VS Code

Soft Skills

Time Management, Teamwork, Communication, Problem Solving

PROJECTS

AI-Powered News Authenticity Classifier

- Built a machine learning model in Python to classify news articles as real or fake, improving detection accuracy.
- Used NLP techniques for text preprocessing and implemented Gradient Boosting Classifier.

HawkEye – Internal Sales Incentive Management System

- Designed and developed frontend to track employee revenue and sales incentives.
- Implemented responsive layouts using React with TypeScript and styled components.

EXPERIENCE

Cognitive Value Tech – Web Developer & Designer Intern

Nov 2024 – Present | Chennai, Tamil Nadu

- Designed and developed user-centric interfaces for HawkEye internal system, improving engagement and usability.
- Built responsive UI components in React & TypeScript, reducing load time by 20%.
- Integrated RESTful APIs to ensure seamless data flow between frontend and backend.
- Debugged and optimized workflows, reducing user errors by 15%.
- Collaborated with cross-functional teams to align design with business objectives.

CERTIFICATIONS

- TATA Data Visualization (Forage)
- AI for Women (GUVI)
- Accenture Developer Virtual Experience Program
